CHALLENGE

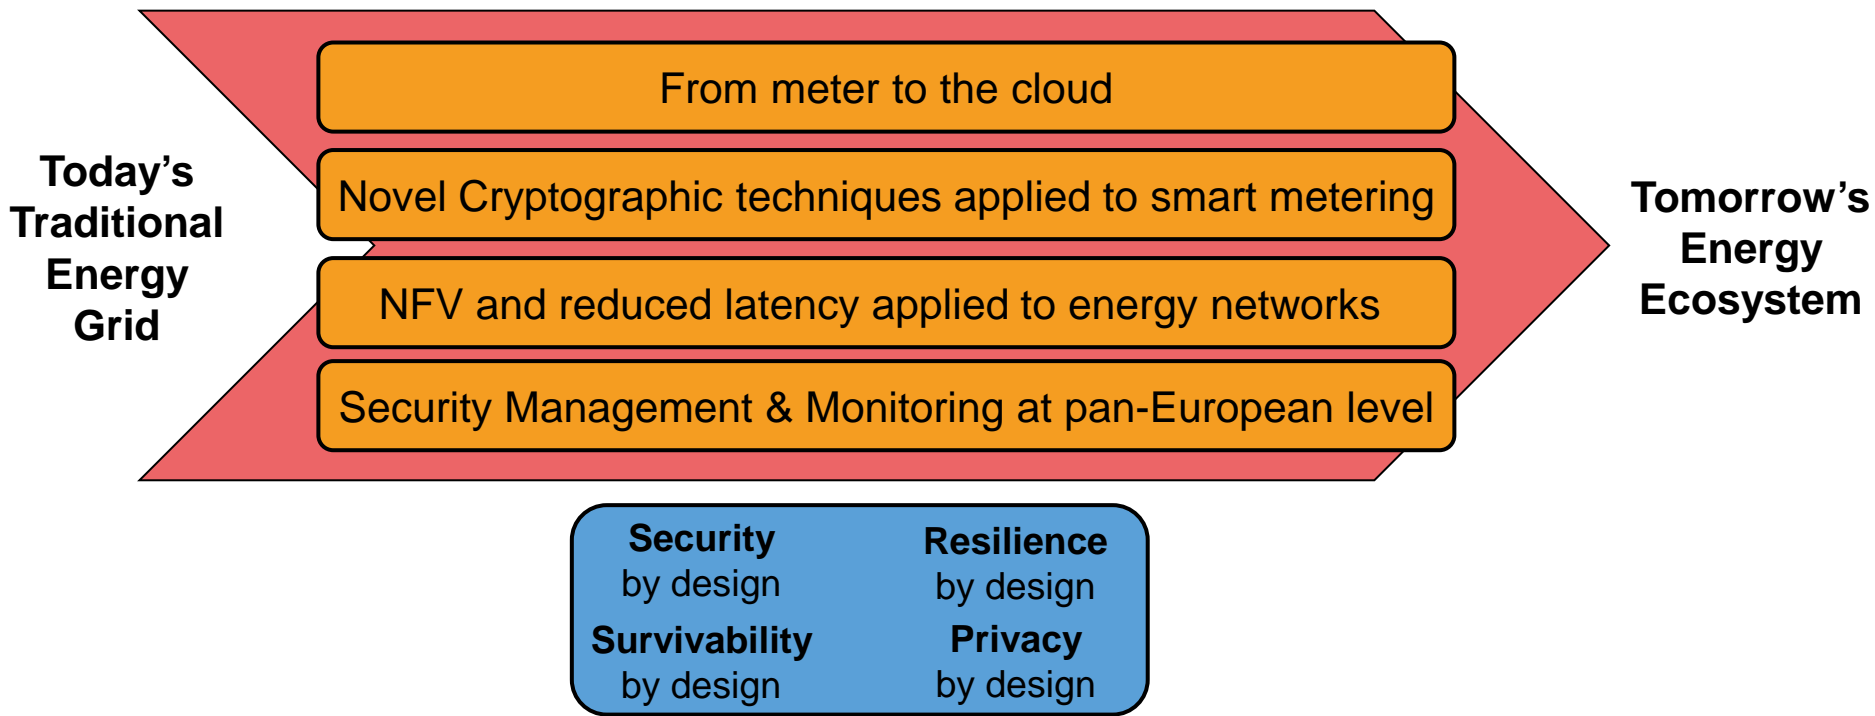

Maintain a secure energy supply in a more open environment

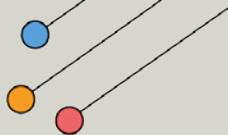

OBJECTIVE

To develop of a new approach to the security of the energy systems, guaranteeing their security of operation, based on **new concepts for Security, Resilience and Survivability**, as well as **Next Generation Open Real time Smart Metering**, in the short and long term, and implemented as the SUCCESS Platform, supporting a complete **customer-centric** automation architecture, while preserving the **privacy** of the customers involved

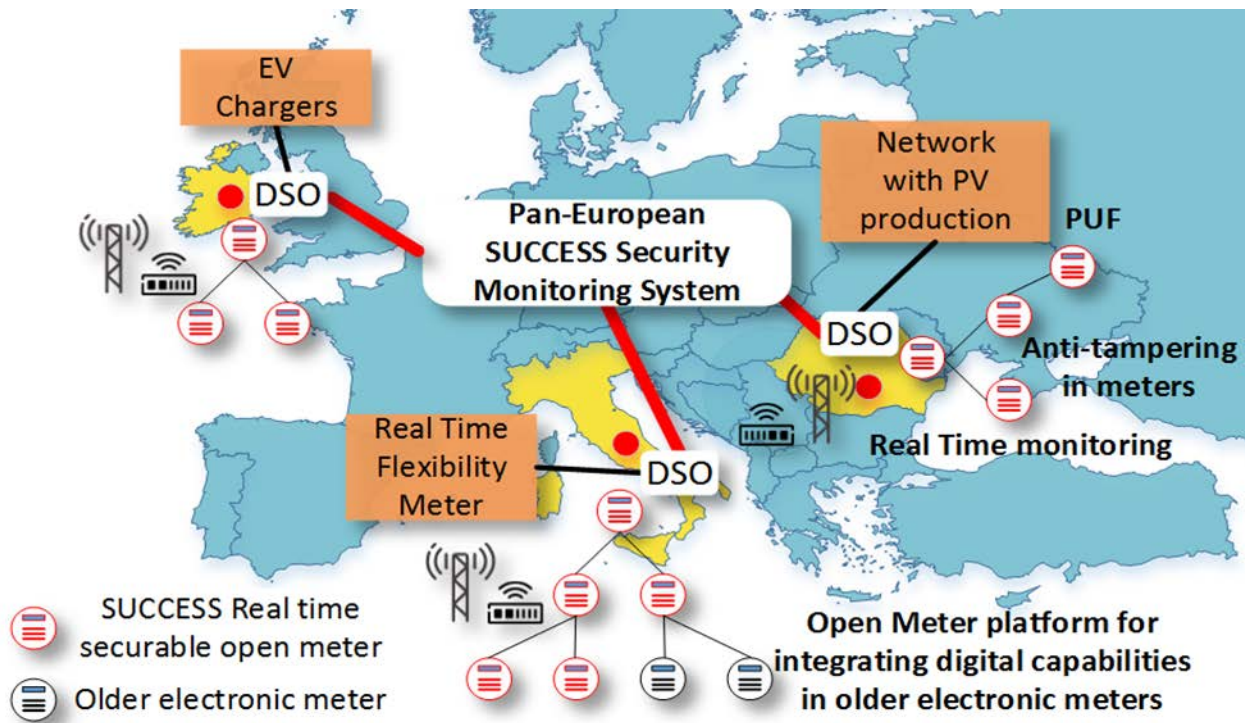

SUCCESS implementation and research concepts

SUCCESS trials

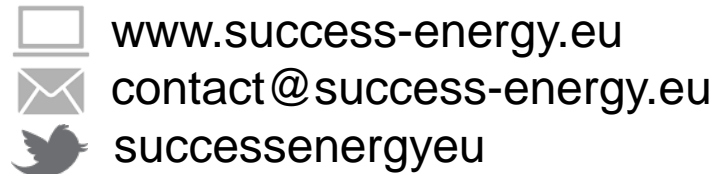

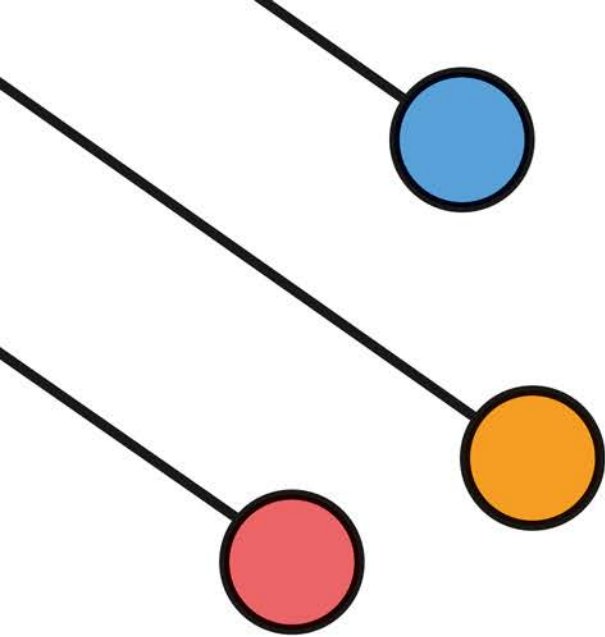

Contact:

Project coordination: Dr. Fiona Williams,
Ericsson GmbH

Technical coordination: Prof. Dr. Antonello Monti,
RWTH Aachen
